<b>Redmine version:</b>	4.1.x

**Description**

When trying to install/update 1.5 I'm getting this error:

```
[!] There was an error parsing `Gemfile`:  
[!] There was an error parsing `Gemfile`: You cannot specify the same gem twice with different version requirements.  
You specified: mocha (>= 1.4.0) and mocha (>= 0). Bundler cannot continue.  
  
# from /usr/src/redmine/plugins/issue_recurring/Gemfile:3  
# -----  
#   gem 'web-console'  
>  gem 'mocha'  
# end  
# -----  
. Bundler cannot continue.  
  
# from /usr/src/redmine/Gemfile:99  
# -----  
# Dir.glob File.expand_path("../plugins/*/{"Gemfile,PluginGemfile}", __FILE__) do |file|  
>   eval_gemfile file  
# end  
# -----

- Status changed from new to feedback

- *Priority changed from bug to support*
- *Target version changed from unspecified to 1.5*
- *Redmine version changed from 4.0.x to 4.1.x*

Hi, thank you for reporting!

This is a known problem and fix will be released with next version.

See temporary solution here: [#22#note-3](#) (comment out gem *mocha* in plugin *Gemfile*).

Let me know if it fixes the problem for you, so I can close the ticket.

**#2 - 2020-03-11 04:30 - lupa18**

yes !

Now it works. Thanks!
