Mailer delivery	smtp
SCM:	
Git	2.20.1
Filesystem	
Redmine plugins:	
redmine_issue_field_visibility	1.0.2
redmine_recurring_tasks	0.3.4

History

#1 - 2021-08-25 15:17 - cryptogopher

- Status changed from new to resolved

Testing for Redmine 4.0.x is currently done only under 4.0.4. There shouldn't be any problems with 4.0.5.

If you want, you can run tests by yourself from Redmine installation directory:

```
RAILS_ENV=test bundle exec rake redmine:plugins:test NAME=issue_recurring
```

If you encounter problems please report it here. If you run tests successfully - please let us know as well, for others' convenience.

#2 - 2022-09-15 22:03 - cryptogopher

- Status changed from resolved to rejected

Closing as Redmine < 4.2 won't be supported in next release.

#3 - 2023-06-08 15:30 - admin

- Tracker changed from 3 to task
