Hello, I'm testing your plugin. Y made 1 recurrence, but no idea what "Details" button in Recurrence section. It's placed on left of Add button.

Hi. This button does nothing now. This feature request ([#7](#)) is created just for this reason: to implement display of recurrence schedule as a hint for recurrence creation. This is not a highest priority feature right now, so it will take some time. If you find the availability of this button misleading, I can hide it until this feature will be completed. Just let me know.
