how can we translate your plugin?

You need to create locale file in a language you are interested in based on *en.yml*.

If you have plugin installed you can find *en.yml* under: *redmine/plugins/issue_recurring/config/locales/*. On github it is here: https://github.com/cryptogopher/issue_recurring/blob/master/config/locales/en.yml

Once you create your locale and put in inside *locales* directory, you can test it by restarting Redmine. If something will not work just attach your new locale in new issue here or create pull request on github and I will take care of it.

#3 - 2022-11-26 21:57 - cryptogopher

- Tracker changed from task to 2
- Redmine version deleted (unspecified)

#4 - 2023-06-08 15:21 - admin

- Priority changed from support to feature

#5 - 2023-06-08 15:31 - admin

- Tracker changed from 2 to task
- Target version set to unspecified
- Redmine version set to unspecified
